Bade, Paul H.	299, 309
Baker, G. A.	439
Bennett, Mary Adelia	251
Blickle, Arthur H.	291
Coman, Dale R.	317
DeMarinis, F.	1
Doljanski, L.	67
Emery, Frederick E.	227
Goldhaber, G.	413
Greenberg, H. A.	83
Halberstaedter, L.	413
Hammett, Frederick S.	183, 199 319, 321, 331
Hecht, O.	413
Hellwig, Isabelle H.	427
Hersh, A. H.	1
Hoffman, R. S.	67
Huggins, Russell A.	427
Huggins, Sara E.	427
Hughes, William	37
Keeler, C. E.	83
Latimer, Homer B.	239
Lichen, Martin M.	323
McClung, C. E.	97
MacKay, Donald C. G.	217, 401
Medes, Grace	175, 251
Miller, Bernard J.	72
Quiring, Daniel P.	299, 309
Reimann, S. P.	72, 175, 253
Schopbach, Robert R.	83
Sherrod, T. R.	11
Sleggs, G. F.	17
Stimson, Anna K.	175
Struck, H. C.	11
Toennies, Gerrit	251
Venzke, W. G.	265
Walp, Lee	37, 199
Weil, Arthur	257
White, Philip R.	47, 53, 319
Wilson, Louise Palmer	183, 273 279, 287

Subject Index

Amino acids, rôle of in developmental growth
l-Arginine, effect on rabbit ova . . . 72
Bar-eyed mosaics in Drosophila . . . 1
Biological properties, geometrical basis of . . . 17
Book reviews . . . 317, 319, 321
Brain, chemical growth of in white rat . . . 257
Cancer pagurus, growth of abdomen . . . 217
growth of sternum and appendages in . . . 401
Cat, prenatal growth of . . . 239
Centipede, garden, relative growth in . . . 323
Choline, dietary, absence of . . . 251
Clam, razor, growth curves for . . . 439
Crab, European, relative growth of . . . 401
Cytosine . . . 287
Differentiation of treated rabbit ova . . . 72
p-Dimethylaminoazobenzene and rat hepatomas . . . 175
Drosophila
bar-eyed mosaics in . . . 1
excised salivary gland cells of . . . 183
larvae . . . 273, 379, 387
tolerance of nucleic acid components by . . . 273, 379, 387
Embryos, chick, weight of glands in . . . 265
Endocrine glands, weight of . . . 265
Fibroblast colonies, cultivated *in vitro* . . . 67
Fucus eggs, effect of l-proline on . . . 199
Geometrical basis of biological properties . . . 17
Germ-free methods . . . 317
Glands, weights of, in the sparrow . . . 299
Glutathione . . . 11

Growth
activating effect of tissue extracts on 67
in prenatal cat 239
rat,
in relation to homocystine 251
in relation to absence of dietary choline 251
relative, in abdomen of the crab 217
relative, in centipede 323
Growth and form 321
Guanine 273
Hepatomas, rat 175
Heterogony of ossification 427
Homocystine and rat growth 251
Insects, effect of X-rays on development 413
Irradiation of larval insects 413
Length-growth curves in razor clam 439
Metabolic levels, variations in 83
Metabolism of the sparrow 309
Methionine, dietary, absence of 251
Methods, micrurgical and germ-free 317
Micrurgical methods 317
Mosaics, bar-eyed, in Drosophila 1
Myxomycetes, cell increase in 291
Nuclear reaction to SH 183
Nucleic acid components in development growth 331
Nucleic acid components, tolerance of by Drosophila larvae . . . 273, 379, 387
Nutrients, inorganic, for plant cultivation 53
Obelia 331
description of 338
growth of 344
Organs, weight of, in the sparrow 299
Ossification in house wren 427
Ova, rabbit 72
Ovarian tumors, atlas of 253
l-Phenylanine, effect on rabbit ova 72
l-Proline, effect on differentiation 37
effect on Fucus eggs 199
Rats,
body growth and organ weights in 227
treated with glutathione 11
variations in basal metabolic levels in 83
Reviews, book 317, 319, 321
Salivary gland cells, Drosophila 183
Sex, relation of, to chemical growth of brain 257
SH, nuclear reaction with salivary gland cells 183
Sparrow, weights of organs and glands 299
metabolism of 309
Stilbestrol, effect on body growth and organ weights of rats 227
Sucrose, rôle of, in nutrition 47
Sulfhydryl and increase in cell number 291
Theelin, effect on body growth and organ weights of rats 227
Tissue culture, plant 319
Tomato roots treated with sucrose 47
inorganic nutrients for 53
l-Tyrosine, effect on rabbit ova 72
Ulva discs, effect of l-proline on 37
Units and systems 97
Uracil 279
Wren, heterogony of ossification in 427
X-rays, effect of, on larval development 413
